Student Online

Tutorial: <https://tx8.testnav.com/client/index.html#login?username=LGN424158057&password=E>

Before taking an EOY assessment, you may want your child to look at the online tutorial. The tutorial will show your child how the online test works and how to use the online tools. Looking at the online tutorial is a good way to make sure your child's device will work for the EOY assessments. You can find the tutorial in the Parent Toolkit in [Avocet](#).
